It's about vivid, brilliant messaging that is focused and impactful!

Our Story is simple. We began Netelligent Corporation in 2003 when a small group of really talented technology engineers made the decision to create an organization that they could feel fantastic about.

We have evolved and grown quite a bit since our birth while staying true to our initial vision. We are proud of our Company, what we do and what we stand for.

Get to know us.

Digital Signage

Made Easy

DIGITAL SIGNAGE IS NOW PART OF THE MAINSTREAM

This is because Digital Signage is now within reach for small, medium and large organizations.

The technology has greatly evolved along with the experience of services providers to implement and support flexible, targeted solutions. Concurrently, the price points have become manageable and alternatives now exist to focus on ROI.

Our Digital Signage solutions enable you to reach your audiences with targeted, dynamic, high resolution content that can be updated in an instant.

The scalable, centralized management and publishing solution controls network display units that can simultaneously present unique messages.

On Premise Solution

When you want control and ownership of your Digital Signage infrastructure.

Hosted Solution

You can be up and running fast with a minimal monthly investment.
