

Beyond the daily care & feeding of your MS solutions, do you need some assistance understanding best practices, new features and reacting to organizational change?

Our engineers can help.

Our Story is simple. We began Netelligent Corporation in 2003 when a small group of really talented technology engineers made the decision to create an organization that they could feel fantastic about.

We have evolved and grown quite a bit since our birth while staying true to our initial vision. We are proud of our Company, what we do and what we stand for.
