

*We do all the work to setup, consolidate & administer your contracts.*

*It costs you nothing. In fact you save money from our great rates and special offers.*

**Our Story** is simple. We began Netelligent Corporation in 2003 when a small group of really talented technology engineers made the decision to create an organization that they could feel fantastic about.

We have evolved and grown quite a bit since our birth while staying true to our initial vision. We are proud of our Company, what we do and what we stand for.

# Maintenance

## SMARTnet

**Simplify your life.** Your investment is huge, and you are going to protect it... Let us simplify the chaos involved with our SMARTnet Optimization services. We do the work for you to consolidate all your hardware components and their disparate service contracts into a single manageable list. Moreover, we do all the work to co-terminate disparate contract terms, provide notifications of key events, and even help you achieve financial incentives. Optimize your maintenance contracts... Optimize your time... Get SMARTnet from Netelligent.

### Consolidating multiple SMARTnet contracts

Often times, as companies procure new equipment, a new SMARTnet contract is generated to cover that specific piece or group of equipment. We can consolidate contracts with the same service-level to ease and facilitate the renewal process annually.

### Co-terminate multiple contract end dates

As companies acquire new equipment and retire older equipment, contract end dates can span the entire 12-month calendar period. We can co-terminate all your contract end dates to help track the renewal process from year to year.

### Serial Number, Inventory and Location Tracking

Many times, equipment gets moved from location to location, or gets replaced which not only complicates the inventory, serial number and location tracking process, but also puts the company in jeopardy if replacement equipment needs to be shipped to a specific location within a certain period of time.

### Multi-year financial incentives

By extending the contracts over 3 years, Netelligent can offer aggressive financial incentives that will save your company the administrative hassle and cost associated with renewing SMARTnet contracts on an annual basis.
